**AT LAST SIGNS THAT LAST!**

## TRAILPOSTS & WAYFINDING

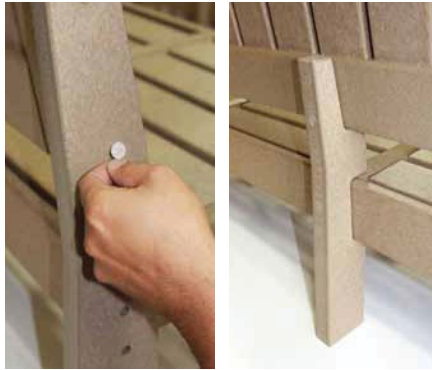

## **The Soldura Difference**

Our distinctive, sustainable outdoor furniture and signage are manufactured to a higher standard, built to withstand the rigors of commercial use.

Products are manufactured from premium grade plus size thickness HDPE Recycled Plastic Materials using titanium UV inhibitors.

Added frame support provided by Stainless Steel Sub Frame where needed.

All products ship fully assembled with hidden stainless steel hardware.

## **Soldura Craftsmanship**

The use of CNC Machine production in the manufacture of all our products ensures consistent tolerances, and quality control.

Mortise & tenon joinery is our trademark method of furniture construction, and all fastening utilizes marine grade stainless steel hardware, leaving no compromise to excellence.
