TABLEWARE
COLLECTIVE

An aerial photograph of a beach. The ocean is a deep teal color on the left, with white, frothy waves crashing onto a light beige sandy shore. The waves form a textured, lace-like pattern as they meet the sand. The text is centered over the image, spanning across the water and the beach.

**Exquisitely Crafted,
Exclusively Yours**

Create a Memorable and Unique Presentation

In a world saturated with food imagery on social media, standing out has become essential, and bespoke tableware offers a distinctive way to create a memorable and unique presentation. Consumers seeking personalized elements and exceptional service can look to Global Tableware Collective to elevate the dining experience and create custom dinnerware that's suitable to their style.

As experts in custom design, GTC has partnered with Designer Nikki Stone to bring a bespoke collection of dinnerware & glassware to the hospitality market. Operators can select from our prestigious dinnerware lines to create a custom plate presentation using a logo, rim decoration, or a full-plate design. Or, design a custom-etched glass to enhance the beverage experience. Either way, the bespoke offerings are certain to create an unforgettable dining occasion.

Design Philosophy

At GTC, we believe that every design detail matters. In bespoke product development, especially for ceramics and hospitality, design integrity is essential. This commitment to quality helps create beautiful, brand-aligned surface patterns that elevate the dining experience.

Whether through a simple logo or bold pattern, each element is carefully considered to enhance the chef's presentation and guest experience. GTC's market-leading expertise in custom projects provides a wealth of experience to customers in all market segments, and the client-focused design approach ensures each project is 100% tailored to their vision.

Meet the Designer

With over 25 years of experience in design and hospitality, Design Director Nikki Stone brings a unique background that blends product and pattern design with commercial sales expertise in the hospitality sector.

Specializing in both shape and surface design for tableware, Nikki has successfully delivered custom designs for world-class restaurants and hotels, including Core by Clare Smyth, Mandarin Oriental, The Dorchester London, Wynn Encore, and Emirates Palace. Her experience, combined with a strong understanding of consumer preferences, industry dynamics, and global design trends, enables her to meet the complex custom design needs of Global Tableware Collective brands.

Over the years, Nikki has developed products from concept to order for leading hospitality brands such as Marriott, Hilton, Accor, and IHG Hotels & Resorts. She is passionate about blending creativity with commercial insight to deliver innovative, beautiful, and functional tableware. Her goal is to design standout products that offer true differentiation in the market.

Stone thrives in the diversity of the hospitality industry, partnering with clients ranging from staff restaurants to Michelin-starred destinations. She believes in collaboration and clear communication, working closely with clients from the start to bring their vision to life.

Qualifications

Nikki graduated with a Master of Arts in Design Management and First-Class Honors Bachelor of Arts in Surface Design Pattern. She also has professional experience across multiple materials and products, including lighting, ceramics, glass, fabrics, and accessories.

GLOBAL TABLEWARE

COLLECTIVE

Global Tableware Collective (GTC) is a pioneering initiative in the hospitality industry, dedicated to enhancing the tabletop market through collaboration and innovation. Our mission is to empower under-represented brands by providing them with a platform to thrive collectively, which enables access to resources, expertise, and distribution channels previously out of reach. With showrooms in Chicago, IL & Youngstown, OH, GTC is prepared to redefine standards of excellence in the hospitality industry, one table setting at a time.

From Logo to Lasting Impression

Logos & bands are a simple, yet impactful way to elevate a brand's visual identity. By incorporating a clean line or logo into the design creates a refined, cohesive look that enhances tabletop presentation. It's an effective strategy to reinforce brand recognition while adding a touch of sophistication. Subtly raise the profile of your brand portfolio through thoughtful, understated design elements.

Logos & Bands Submission Requirements:

- Vector artwork
- Size & placement of logo on product
- Band(s) position
- Color (i.e. Pantone No. xxx)
- Item selection & quantity

Once all details have been received, a CAD image(s) will be provided within 3-5 days.

See page 41 for sample delivery & product times.

Designs as Unique as Your Vision

Enhance brand identity and elevate the dining experience with bold, statement-making designs. By fully decorating the rim of a plate or featuring a striking, offset motif across half the plate, operators create a visually impactful canvas that reinforces brand presence. This approach not only showcases a unique aesthetic but also complements and enhances food presentation, offering a perfect balance between creative expression and functional elegance.

Rim & Motif Submission Requirements:

- Vector artwork of rim decor or motif
- Size & placement of decor on product
- Color (i.e. Pantone No. xxx)
- Item selection & quantity

Once all details have been received, a CAD image(s) will be provided within 3-5 days.

See page 41 for sample delivery & product times.

A Fully Custom Experience

GTC will simplify the bespoke design process from start to finish, allowing operators to focus on creativity while we handle the details. From discussing the design brief to exploring possibilities, we will guide you through each step. Whether enhancing brand recognition with a refined design or creating something entirely new, we collaborate closely to bring your vision to life seamlessly.

Bespoke Design Submission Requirements:

- Design brief, which includes inspiration like interior design renderings, moodboards/swatches, design direction, etc.

Once a design brief has been received, GTC will schedule a consultation to gain an understanding of style, feel, and color thoughts. After consultation, a CAD image(s) will be provided within 1-2 weeks.

See page 41 for sample delivery & product times.

Decal Decoration

A timeless and versatile technique, decal decoration allows for the precise application of intricate designs, patterns, and imagery onto plateware. Using heat-transferred ceramic decals, each design is meticulously applied by hand and kiln-fired to permanently fuse with the glaze. This process ensures a rich, vibrant finish that is both durable and dishwasher-safe. Ideal for adding logos, fine detail, or ornamental motifs, decal decoration brings consistent beauty and character to every piece—perfect for the hospitality environment.

Digital Printing

Modern and highly versatile, digital printing is an advanced decoration technique that applies detailed, full-color artwork directly onto ceramic surfaces using specialized ceramic inks. When paired with reactive decals, this method unlocks additional depth and artistry—producing subtle variations, watercolor-like effects, and unique finishes that make each piece one-of-a-kind. Whether delivering photographic-quality imagery, complex gradients, or custom designs, the decoration is kiln-fired to ensure durability, resulting in a vibrant, food-safe finish that stands up to daily use in commercial environments.

Maximizing Visual Impact

Renowned for strength and timeless craftsmanship, G. Benedikt porcelain combines performance with sophistication. Custom design options let you personalize plate rims, coupe plates, and accessories with accents, artwork, or branding, creating tableware that is both durable and unique to your operation.

Raise a Glass for Custom Decoration

Utilize GTC's in-house laser etching capabilities to etch your company's logo on your glassware for brand recognition while indicating the desired pour line for your staff's reference. Global Tableware Collective's "laser-true" technology gives you the opportunity to create a unique addition to your tabletop and a cost-saving solution for your business. Alternatively, use our third party decorators for decals or faux etching to elevate the beverage experience.

- A permanent image that will not wash or wear off
- Consistent pour lines for cost control
- Increased branding with corporate logo or image
- Ability to etch tempered glass
